

Summertime Fun and Learning at The Goddard School®

Call today for a complete summer calendar!

Blast off with **Mysterious Minds** and a summer full of science adventures! Mysteries of science and magic may not be solved, but they will certainly be explored through sponge balls, invisible ink, and even a meteor shower. The Wonders of the World, a little Time Travel, and a thorough investigation of H₂O round out this scientific journey.

The **Mysterious Minds** calendar also includes special visitors and cultural events throughout the summer. Visitors provide exciting learning opportunities in a safe environment, and include community helpers; performances by storytellers, musicians, and magicians; as well as outreach programs through local museums.

ARTS & CRAFTS

Fantasy Fossils
Earth Painting
Magnet Mania
Goopy Gunk
Magic Wands
Trash Collage

COOKING

Fruit Smoothies
Taste Test
Earth Cookies
Butter Churn
Sun Tea
Rainbow Salad

SCIENCE & NATURE

Penny Experiment
Make Cheese
Space Glue Putty
Ice Cube Necklaces
Phases of the Moon
Constellation Study
