

Summertime Fun and Learning at The Goddard School®

Call today for a complete summer calendar!

Immerse your young time traveler in a summer of full of exploration and learning. Travelers will search history from the cave dwellers of prehistoric times to the castle dwellers in medieval times. Children will learn about the foods, homes, and lifestyles of the colonial times right up to today. The **Time Travel** program even offers children the opportunity to peek into the future.

The **Time Travel** calendar also includes special visitors and cultural events throughout the summer. Visitors provide exciting learning opportunities in a safe environment, and include community helpers; performances by storytellers, musicians, and magicians; as well as outreach programs through local museums.
