

Summertime Fun and Learning at The Goddard School®

Call today for a complete summer calendar!

From a New York “state of mind” to an Alaskan adventure, children are going to shout **Hooray for the USA!** Children will learn the Texas Two-Step and fly to a Hawaiian Hideaway before their ‘Maine Event.’ A trip around the United States would definitely not be complete without a visit to Tennessee, Fabulous Florida, and a little California Dreamin’.

The **Hooray for the USA** calendar also includes special visitors and cultural events throughout the summer. Visitors provide exciting learning opportunities in a safe environment, and include community helpers; performances by storytellers, musicians, and magicians; as well as outreach programs through local museums.
